Slide 7

Work Distribution

- Group: Discussion and research on the possible UI and database design, tentatively decided on contents.
- Anukaran : Planning on how to create the database, and database modelling with UML
- Tek: Did the basic UI design. Part of all the pages that were needed were designed and presented to the group.
- Mehdi: Worked on the skeleton of the app's landing page and different components to introduce the product to the users

Slide 8

Suggestions Received

- Make the work more professional.
- Make use of good templates such adminlte.
